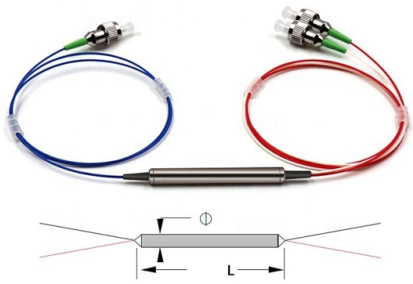
Croatia Gigabit Multimode Optical Module



Overview

The QSFP28 full-duplex optical module offers 4 independent transmit and receive channels, each capable of 26Gbps operation for an aggregate data rate of 104Gbps 70m using OM3 fiber. The Digitus DN-81630 is a Four-Channel, Pluggable, Parallel, Fiber-Optic QSFP28 Transceiver for IEEE 802. 3bm, 100GBASE SR4 Applications,or 40 Gigabit Ethernet and Infiniband FDR/EDR Applications. Power Consumption CLASS 1 LASER PRODUCT, IEC/EN 60825-1:2014 Do not look into the ends of the fiber optic cable or SFP module while converters are. Compatible 10GBase-SR Multi-mode 550m 850nm SFP+ Transceiver for 10 Gigabit Ethernet. This OEM compatible SFP+ transceiver module is a high performance, cost effective device supporting a data-rate of 10Gbps over 82m transmission distance on OM2 fiber or even 400m over 10Gbps-optimized OM4. Amphenol SFP Optical Modules • SFP+ Optical Modules from Cables on Demand are Now Available in both Short Range (SR) Multimode and Long Range (LR) Single Mode Transceiver versions. Our Cisco, HP and Brocade ready 10GBASE-SR Multimode SFP+ Modules feature low power consumption (<800mw) using Duplex. Ubiquiti originally released the UF-MM-10G as the first 10G SFP+ multimode transceiver in its U Fiber product line. The UACC-OM-MM-10G-D has since replaced it in Ubiquiti's current catalogue, but both modules share the same 10GBASE-SR optical specifications. The UF-MM-10G part number still appears. The MJ-SFP10G-SR SFP+ transceiver provides a high-performance, cost-effective solution for 10. It is programmed for installations in switches, routers, servers, PCI Cards, Firewalls and other connections in.
