AI server connection error

Overview

The proven fix is to upgrade the SDKs (azure-ai-projects and also install/update azure-ai-agents, keep azure-identity current) and explicitly set api_version="2025-05-15-preview" when constructing AIProjectClient; this exact pin resolves the opaque server failures reported by. The proven fix is to upgrade the SDKs (azure-ai-projects and also install/update azure-ai-agents, keep azure-identity current) and explicitly set api_version="2025-05-15-preview" when constructing AIProjectClient; this exact pin resolves the opaque server failures reported by. The ADK web server fails to communicate with the Google AI API when trying to run an agent, resulting in an httpx. ConnectError during the TLS handshake phase. The error occurs when the agent attempts to generate content using the gemini-2. Steps to reproduce the behavior: The agent. You're hitting a runtime failure during Code Interpreter session provisioning/execution in Azure AI Agents, which shows up as server_error: Sorry, something went wrong. This pattern is not caused by your prompt, temperature, or whether files are attached; it's most commonly a. Hey team I am having a consistent error when trying to use AI Studio no matter what I try to build it always returns fixing error then loops to auto fix. Welcome to the AI Forum!! Thank you for reaching out! This seems to be a. If you've ever spent an afternoon battling 'Connection failed' messages in your AI-powered IDE, you're not alone. What looks like a simple network issue often hides a web of technical gremlins – from VPN quirks to IPv6 handshake problems. After untangling dozens of these cases, I want to share what. The sample code given here: https://platform. com/docs/api-reference/chat?

lang=python successfully runs in Google Colab environment.
