

Are Huawei s optical modules universally compatible

Overview

A switch must use optical or copper modules that have been certified for use on Huawei S switches. You can also use the Hardware Center to query the components including optical modules supported by different switch models and the detailed specifications by part number, product model, and module type. Recommended optical module configurations for the Huawei S6720S-26Q-LI-24S-A switch: Optical Modules for Use with Huawei S6720S-26Q-LI-24S-A Switch: Screenshots of on-machine verification shared below: Additional Learning. When many customers purchase optical module products, they will worry about one question: can your module be compatible with XXX switch?

In order to eliminate customers' concerns, ETU-Link has purchased a variety of brands of switches, including Cisco, Huawei, H3C, HP, Juniper, Alcatel, Mikrotik. A switch must use optical or copper modules that have been certified for use on Huawei switches. All or part of the products, services and features described in this document may not be within the purchase scope or the usage scope. Huawei is not liable for any problem caused by the use of non-certified optical or.

Optical Transceiver Manufacturer,Do You Worry About Whether The Module ...

When many customers purchase optical module products, they will worry about one question: can your module be compatible with XXX switch? In order to eliminate customers' concerns, ETU-Link has

Jun 28, 2025

Types of Optical Modules

Therefore, when using such optical modules, select optical fibers of an appropriate length to ensure that the actual receive power is smaller than the overload power. If the optical fibers connected to a long

May 19, 2026

Types of Optical Modules

Multimode optical modules are used with multimode fibers. Multimode fibers have lower transmission performance than single-mode fibers because of modal dispersion, but their costs are also lower.
