

Cable tray lateral crossing bend

Overview

Cross Bends for Cable Trays are essential components that facilitate the intersection of cable trays, resulting in a four-way junction. The Ladder Tray features light, rugged, tubular steel construction. Our company is a trusted manufacturer of high-quality bends for cable trays, engineered to provide seamless transitions. Elcon make Ladder Cross Bends are key components in cable tray systems, specifically designed to connect and support cable routes in four different directions. The perforations help maintain proper airflow. Armorduct Systems are a UK manufacturer of steel cable management systems including cable trunking, tray, basket, floor boxes, power track & more. Wide range standard cable management products & bespoke CMS solutions designed and manufactured in house.
