

Dual-Window 16-Optical Splitter

Overview

16 way dual window optical splitter fitted with female FC/PC connectors to enable the direct connection of pre terminated GI-3.0 FC/PC fibre optic patch cables. 2, 3, 4, 8, 16 and 32 way version outputs are available to achieve the desired Passive Optical Network (PON). Figure 1. 1 1x16 Wideband Single Mode PLC Splitter Mounted on FCQB Base (Available Below) Thorlabs' Single Mode 1x16 Fiber Optic Planar Lightwave Circuit (PLC) Splitters allow a user to split a single input signal evenly into 16 output signals, which is ideal for passive optical networks (PON) and. The Optical Box Splitter has been designed to allow quick and easy connection of pre-terminated fibre cables. Also designed to equally divide the. The compact yet robust LS Series splitter modules are available in multiple configurations (1x64, 1x32, dual 1x16, dual 1x8). Each splitter module features small form connectorized inputs and outputs with simple one-step parking.
