Question We have been inspecting equipment according to NEN 3140 for some time. Are there any special things I should pay attention to?

Answer You perform a visual inspection and then measure the continuity of the protective conductor up to. HSE and other organisations have produced guidance on electrical safety that is suitable for a wide range of industries and technical competencies. Most of the information produced by the HSE is available for immediate download. Here's what separates audit theater from actual compliance: Weld Inspection: Poor penetration welds on enclosures create moisture entry points. Grounding Continuity: Distribution boxes lacking proper bonding paths become lethal.
