

High and Low Voltage Complete Sets of Equipment

Overview

This solution covers a complete set of power equipment from low-voltage distribution cabinets, high-voltage switchgear to transformers, automation control systems, etc., aiming to provide comprehensive and customized power solutions for various users. Our high and low voltage complete electrical equipment solutions are designed based on a deep understanding of the current development trends in the power industry and accurate predictions of future power demand. In distribution systems, they can be used in ring network distribution systems as well as in dual power supply or radial terminal distribution systems. Weatherproof: IP65-rated enclosures (-40°C to +70°C operation). Flexible terminations: 6~24 cable entries for 1kV/10kV systems. Plug-and-play deployment: Pre-assembled units (2).
