

How long does it take to install a mobile fiber optic cable

Overview

On average, installation can take between 2 and 4 hours, but in some cases it can increase up to 8 hours. Make sure to coordinate with your internet service provider to schedule an appointment with a technician to ensure the installation is completed in the shortest possible time. Will the technician dig up my yard to install fiber optic internet?

Your fiber technician will need to either bury the fiber in your yard. The estimated time for fiber optic installation may vary depending on several factors. This is because the fibre cable needs to be laid over a longer distance, which can be. Do you mean how long before your local isp infrastructure is operational and ready for subscribers or do you mean a home installation?

Install in your home takes 3 or so hours. Below, we'll explore in detail the factors that influence this timeframe and what you can expect during the process.
