

Inquiry about the number of bronze plates in the distribution box

Overview

Internal boxes install 18 modules on a single DIN rail. The Electric Power Research Institute (EPRI) has developed the 2024 update of the EPRI Underground Distribution Systems Reference Book (Bronze Book). This reference, authored by leading industry expert authors, joins the EPRI series of Power Delivery technical references, commonly known by the. The MP/MN distribution panels are applied in various industries, in energy distribution sector and also for residential, commercial and office centers. They are used for switching, protection and power distribution circuit breakers installation. Metal distribution boxes are designed for both. The single-phase distribution box is designed to accept incoming conductors with a maximum size of 120mm² and 3 service cables of up to 35mm². Will suit CNE or SNE type cables.
