Inventory Transparent Optical Cable ADSS

Overview

AFL's ADSS (All-Dielectric Self-Supporting) fiber optic cable is designed for aerial installation without the need for messenger wire. Lightweight, non-metallic, and durable, it's ideal for power utility and telecommunications applications in harsh environments. BEAD/BABA options. Fiber Optic Cable 258 Original Std ADSS Flex-Span ADSS New Std ADSS Applications • Electric utility transmission lines – Typically framed under conductors • EHV environments – Tracking-resistant options available Features • Up to 432 fibers in cable – Gel-Free Buffer Tube options available – up to. ADSS (All-Dielectric Self-Supporting) cables are designed to be laid near medium-voltage lines (12KV-25KV). One of the identification or selection methods is defined by the voltage level to which they will be subjected and/or the wind speed they will be able to withstand. It is used by electrical utility companies as a communications medium, installed along existing overhead transmission. Abptel, as a leading manufacturer of ADSS cables, specializes in providing high-quality, all-dielectric, self-supporting cables for various industrial and commercial applications. Our ADSS cables, produced in our state-of-the-art factory in China, adhere to strict environmental and IEC operational. Every year, our sales team fields hundreds of RFQs from contractors and distributors who later discover their ADSS cable budgets were off by 30% or more. Both single mode and multimode fibers can be arranged in ADSS cables with a maximum of 144 fibers.

All-dielectric self-supporting cable

OverviewConstruction detailsAccessories and installationApplication issues

All-dielectric self-supporting (ADSS) cable is a type of optical fiber cable that is strong enough to support itself between structures without using conductive metal elements. It is used by electrical utility companies as a communications medium, installed along existing overhead transmission lines and often sharing the same support structures as the electrical conductors. ADSS is an alternative to OPGW and OPAC with lower installation cost. The cables are designed to be s

Nov 15, 2025

ADSS Fiber Optic Cables Types Prices & Technical

ADSS cable is ideal for installation in distribution as well as transmission environments. Since the ADSS cables provide an optimal solution for a broader
