

Israeli Explosion-proof Lighting Distribution Box

Overview

Introducing our Explosion-proof Lighting (Power/Repair) Distribution Box, designed for enhanced safety and efficiency in hazardous environments. ♦ The explosion-proof. This series of products have good explosion-proof function, suitable for IIA, IIB, IIC explosive gas environment and various flammable and explosive sites, mainly used in railway, power, metallurgy, petroleum, petrochemical, chemical, iron and steel, aviation, ships and various factory areas. Explosion-proof lights used in hazardous areas where combustible gases and dust exist, which can prevent arcs, sparks, and high temperatures that may occur inside the lamp from igniting combustible gases and dust in the surrounding environment, thus meeting explosion-proof requirements. It is widely used in flammable and explosive gas environment such as oil exploitation, refining, chemical industry, offshore oil platform, oil tanker, etc. Flameproof enclosure Ex d IIB+H2 Copper-free aluminium enclosure, powder coated surface. Equipped with a specialized hinge structure which can prevent damage to the flameproof joints when opening and closing the box and greatly prolongs the service life.
