

LPO Optical Module New Import

Overview

Amphenol XPO-LPO optical transceiver delivers next-generation 12.8T Ethernet connectivity with 224 Gb/s per lane. Leveraging LPO technology, the module provides ultra-low-latency, power-efficient optical links tailored for AI, high-performance computing, and hyperscale data. Having tripled in the past decade, 5 Data Center Energy Use, published by the Lawrence Berkeley National Laboratory, data centers account for 4. in 2023, and are projected to increase to 6. It. LPO (Linear-drive Pluggable Optics) uses a completely different design idea from traditional optical modules. Unlike traditional retimed optics that rely on Digital Signal Processors (DSPs) within the module. OFC2025, San Francisco -- The LPO MSA (Linear Pluggable Optics Multi-Source Agreement) Group announced today the completion and availability of the 100 Gb/s per lane Linear Pluggable Optics Single-Mode Optical Data Transmission specification, targeting up to 800 Gigabit Ethernet connectivity.
