

Malaysia Fiber Optic Fusion Splice Box 4 Cores

Overview

The 4-core fiber termination box provides a stable, protective joint between optical cable and distribution pigtails at the end of fiber cables. It is typically used in cabling work area subsystems. In the entire visual place, products in the percent of pass is one hundred percent, greatly save the time of construction. The cable of the welding can achieve high optical performance. Optik Prima Sdn Bhd has been established as a trading company in Malaysia since April 2014. We provide. Switch Two Com (S2COM) is Malaysia's top choice for fiber optic solutions, offering advanced products and services for high-speed internet, telecommunications, and networking. Trust S2COM for unmatched. The Splicing Machine Fusion Splicer is suitable for many works both professional and home projects! It's is heavy-duty and practical! If you don't know what it is, a splicing machine is basically a device that welds or fuses two fibers together. The advantage of using a machine to manually fusing. The 4 port FTTH termination box is a professional enclosure designed to provide a reliable and efficient fiber termination solution for indoor fiber-to-the-home applications.
