

# Mobile 288-core ground-mounted optical cable distribution box

## Overview

The OHC 288 houses 48 feed/pass-thru adapters and 288 distribution adapters for fiber distribution to high density buildings with many potential subscribers. OHC are constructed from powder-coated aluminum that is both durable and lightweight. The unit can be quickly installed by a. Optical Hub Cabinets (OHC) provide fiber distribution to subscribers from a compact, environmentally protected outdoor terminal. These PON terminals have space for multiple. The Fiber Optic Distribution Cabinet, also known as the Cross Connection Distribution Cabinet, serves as a pivotal link between telecom feeder cables and customer cables. Typically floor-standing, occasionally wall- mounted, it is strategically positioned on streets as a key optical node within. The box is made of SMC through high-pressure compression molding, with a long service life, anti-aging, radiation resistance, and no need for any protection on the surface. It has all-weather protection function. IP65-rated, high-density solution for reliable, scalable network deployments. Compliant with IEC, TIA/EIA & RoHS standards.
