

SGW11 Optical Cable Down Lead

Overview

Expertly engineered to support OPGW and ADSS cables from the upper part of the tower straight down to the splice box, this highly versatile fiber optic downlead clamp completely prevents destructive cable shaking. AFL's downlead clamps install easily, provide proper spacing and hold strength without damage to the cable. From poles to towers, AFL offers a full line of OPGW downlead clamps to meet. GL FIBER focuses on optical fiber OEM production services, and is committed to providing customers with brand customization, personalized packaging design, optimal cable structure design, and the best packaging design for international container transportation. We manufacture a wide range of. Maximize your optical fiber safety instantly with the down lead clamp. According to the application, the down lead clamp includes down lead clamp for towers, down lead clamp for poles, down lead clamp for ADSS, and down lead. Get samples of US\$ 3/Piece Company Info. Enter between 20 to 4,000 characters. Click here to contact the supplier through an inquiry.
