ST-APC Interface

Overview

ST/APC connectors are a type of fiber optic connector commonly used in telecommunications systems. The acronym "ST" stands for Straight Tip, while "APC" stands for Angled Physical Contact. 5 mm diameter, providing good mechanical isolation of the contact. A mechanical key prevents. Quality is the Priority Fiber Cabling Solutions ST APC Fiber Optic Connectors Avalon APC Fiber Connectors polishes the fiber at either an 8 or 9 degrees angle with a radius of curvature between 5 and 12mm. Through angle polishing the end of the fiber, one ensures that the reflection at the fiber. Fibermart provides ST/APC to ST/APC Singlemode Simplex Fiber Metal Adapter with good price & quality! 100% Tested and Free Shipping!CTEC ST/APC fibre optic connectors comprise of a nickel plated brass or full die-cast body together with a full ceramic conic ferrule. The connector is precision made and the end face is polished to 8° APC.
