

South Sudan Aerial Optical Cable Laying

Overview

The Ministry of Information, Communication Technology and Postal Services (MOICT&PS) of the Republic of South Sudan, in collaboration with the World Bank, is set to begin laying a fiber optic cable from Kenya early next year. The plan was discussed during the 13th leadership meeting of the MOICT&PS, a project that is expected to significantly improve the country's connectivity and digital infrastructure. This technology offers significantly faster speeds, greater bandwidth, and more reliable connections compared to traditional internet connections like cable or Digital. (LUSAKA) - South Sudan will begin the construction and installation of its national fibre optic cable in December, connecting the country to the Indian Ocean through Kenya in a major step toward improving internet access and digital infrastructure.
