Swiss Power Distribution Box Specifications

Overview

— Power Box with integrated MIL STD Battery Chargers — Single Cell Fuse No Thermal Runaway — Active, programmable BMS — AC-Inputs protected by Circuit Breakers — DC-Output protected by Circuit Breakers — Under- and Overvoltage protection (programmable) — Optional CAN Bus for Battery. — Power Box with integrated MIL STD Battery Chargers — Single Cell Fuse No Thermal Runaway — Active, programmable BMS — AC-Inputs protected by Circuit Breakers — DC-Output protected by Circuit Breakers — Under- and Overvoltage protection (programmable) — Optional CAN Bus for Battery. Aware of your challenges for more efficient operations, our technical teams design electrical cabinets perfectly sized to your needs with the aim of optimizing every kilowatt. Indeed, it was the first time that Alps Equipment had produced such a large volume of cells for Siemens. Alps Equipment. Sturdy housings made of hard rubber, sheet steel, plastic or stainless steel, solid bumper variants, generous fuse protection, high-quality installation components and well thought-out design and construction details ensure a long product life cycle. Advanced Power Distribution Solutions for Swiss Infrastructure & Industry Engineered for Swiss Alpine conditions and precision infrastructure requirements Switzerland's unique geographical landscape and commitment to sustainable energy infrastructure create specific demands for outdoor power. Könner & Söhnen® Distribution Boards provide reliable connection for up to 7 groups of devices with a maximum current of 32A. Suitable for indoor and outdoor use. How to choose the right.
