

The butterfly-shaped optical cable is the drop cable

Overview

The FTTH Drop Fiber Cable is also called butterfly optical cable because it looks like a butterfly in cross section. It is the leading product for fiber optic cable in the. The fiber drop cable is the optical communication unit (optical fiber) in the center, two parallel non-metal reinforcement (FRP) or metal reinforcement members are placed on both sides, plus black or colored polyvinyl chloride (PVC) or low-smoke halogen-free material (LSZH), Low-smoke. The drop optical cable constitutes the optical cable line from the user access point to the terminal, which is crucial to the FTTH network. It offers an efficient and economical solution for deploying fiber in FTTH network. Central loose tube cables and self-supporting FTTH drop cables are designed for outdoor aerial distribution.

A kind of prefabricated end butterfly drop cable and its

A lead-in optical cable and butterfly technology, which is applied in the field of prefabricated-end butterfly lead-in cable and its preparation and wiring, to

Jan 19, 2026

Outdoor FTTH Drop Fiber Cable, Self-Supporting

FTTH outdoor drop cable (GJYXFCH/GJYXCH) is also called self-supporting butterfly drop optical cable which consists of a indoor butterfly cable and an

Apr 02, 2026

Fiber Optic Drop Cable Guide

Types of Drop Cable The main types of drop cables include indoor drop cables (GJXFH, GJXH, GJXKH), outdoor self-supporting drop cables

Oct 08, 2025

What is Fiber Optic Drop Cable?

What is Fiber Optic Drop Cable? Fiber drop cable is the basic fiber optic cable that is used to connect the terminal of a distribution cable to a

Jun 19, 2026

Four -end connection methods of butterfly -shaped optical fiber optic ...

Butterfly-shaped optical fiber cables are a popular type of fiber optic cable that is commonly used for data transmission in telecommunication networks. They are called butterfly

Mar 20, 2026

ABC of FTTH Drop Cable

The self-supporting drop cable is with a thick steel wire suspension wire compared with common indoor drop cable. There are two types of butterfly-shaped home optical cables: non-metallic strengthen

May 01, 2026

The Structure of Drop Cable: A Comprehensive Guide | FIBEYE

The structure of the butterfly drop cable can vary among different manufacturers, but it typically consists of non-metallic strengthening cores, with the optical fiber located in the middle, and the strengthening

Aug 11, 2025

Butterfly -shaped optical fiber optical cable

In conclusion, there are several ways to connect butterfly-shaped optical fiber cables, each with its own advantages and disadvantages. Fusion
